SERENITY PLUS 2-PERSON BATH

The Serenity Plus is available in a choice of two sizes - the 1700 and 1800. Both models are supplied with only waste & overflow holes drilled in order to allow options on jobsite in the positioning of spouts, taps, hand-showers & whirlpool controls. The only rule is good plumbing.

These baths are usable mounted in a deck or undermounted to a deck. Do not support the weight of the bath by its rim on a deck. The bath has four screw adjustable feet allowing a variation in height of 50mm/2". Maximum height of feet is 140mm/5½".

All Cabuchon products are registered designs covered by copyright and the Company, being committed to continuous innovation and improvement, reserves the right to change specifications without notice. Tolerances are + or -3mm.

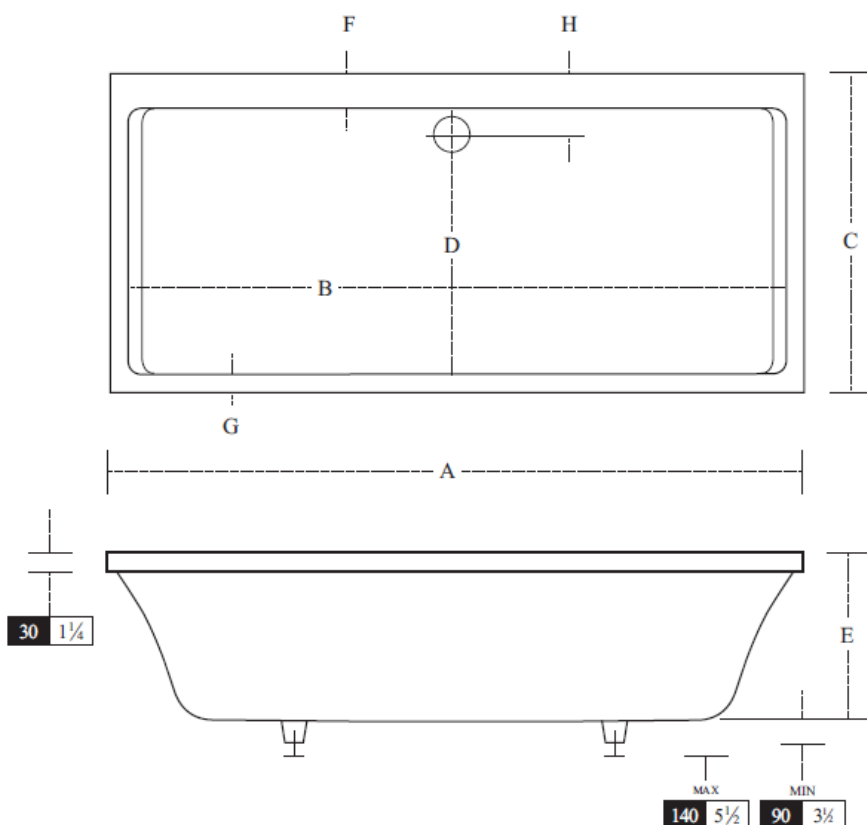

BATH MODEL		1700	1800
A	External Length	1700	1800
		67	71
B	Inner length - Top	1560	1660
		61½	65¼
B	Inner length - Bottom	1050	1120

		110	110
G	Other Rims Width	4¾	4¾
		70	70
H	Waste Location from rim exterior	2¾	2¾
		260	210
		10¾	8¾

NORMAL WATER REQUIREMENT:

1700 Plus model: 377 Litres, 82 Imperial Gallons, 99 US Gallons

1800 Plus model: 489 Litres, 107 Imperial Gallons, 129 US Gallons

KEY TO SIZES: ■ Millimetres □ Inches to nearest ¼"

Because Serenity baths are primarily inset or undermount, we do not supply standard panels.

If commissioned to do so we can provide bespoke panels - either loose (but in one piece no matter how many sides, to ensure stability and rigidity) or as an integral part of the bath's body - if the objective is to make the bath free standing. This is illustrated on the Cabuchon website.

***Note:** On the 1700 Plus the waste/overflow is on the widest rim length. On the 1800 Plus the waste/overflow is on the narrowest rim length.
