

# STUDIO BUILT IN BATH

## Specification Sheet

### Pre-installation

Turned on its side, the Studio will pass through a standard architectural door of 29"/ 737 mm. It may be necessary otherwise to remove the door's side panels or architraves, to make a wider gap. However, one of the major properties of our Ficore® composite, from which we build our baths, is that, to a small degree, it permits us to modify the external dimensions of a rectangular bath by building it with narrower or wider rims. You are not therefore tied to the exact dimensions on the specification sheet.

### Dimensions

A	Inner Length - Top	1392
	Inner Length - Bottom	54 <sup>3</sup> / <sub>4</sub>
B	Inner Width - Top	677
	Inner Width - Bottom	26 <sup>3</sup> / <sub>4</sub>
C	Waste Location From Bath Edge	210
		8 <sup>1</sup> / <sub>4</sub>
D	Inner Height	505
		19 <sup>3</sup> / <sub>4</sub>
E	External Height (Min)	605
	External Height (Max)	23 <sup>3</sup> / <sub>4</sub>
		650
		25 <sup>1</sup> / <sub>2</sub>

### Bathing depth

405mm/16"

(Overflow centred 3" down)

**Note:** Manufacturing tolerances are + or - 3 mm.

See our FAQs for more details - <https://www.cabuchon.com/faqs/>.

### MAXIMUM WATER REQUIREMENT:

290 Litres, 63<sup>3</sup>/<sub>4</sub> Imperial Gallons, 76<sup>1</sup>/<sub>2</sub> US Gallons

WEIGHT: 30kg/66 lbs (Empty). 320 kg/705 lbs (filled to overflow).

KEY TO SIZES:  Millimetres  Inches to nearest 1/4"

Registered office: Whitegate, Lancaster LA3 3BT, England

## **Installation**

The Studio can be installed sunken or semi sunken into a deck, or inset (drop-in), undermounted, or free standing with panels. Practical examples can be seen on the Cabuchon website. In addition to the photographs shown on the Studio web page, there are photographs of our other baths, kindly sent to us by clients, in our '[What our customers say](#)' section.

The Studio's integral steel chassis has four screw adjustable feet to assist in levelling the bath.

## **External Step**

The Studio was designed to make it easy for users to enter and exit the bath. Fitting an external step is therefore optional but not essential. If a step is to be fitted, then its dimensions should be chosen to suit the user's individual requirements.

## **Panels**

We do not supply panels as standard because there are many possible styles and variations available to suit different décors. However, we are happy to do so on a bespoke basis. Panels are fabricated in Ficore® and they can be supplied either loose or integral to the bath. If the former, then for reasons of or security and stability, they are supplied in one piece - no matter how many sides are required.

## **Hydrotherapy Systems**

The Studio was designed to be fitted with one of our optional hydrotherapy systems, in order to deliver an even greater degree of pleasure and comfort, and to act as an aid to health. For details, specifications and illustrations, please refer to the Hydrotherapy section of our website. See: <https://www.cabuchon.com/hydrotherapy/>

## **Grab Bars**

The bathtub is strong enough to take the fitting of grab bars of any shape and size, at any location. Again, we recommend that these are only fitted on site after the user has had the opportunity to trial it *in situ*.

## **Copyright Design**

The Studio is a registered design of the company and is covered by copyright. The company, being committed to continuous innovation and improvement, reserves the right to change product specifications without notice.

## **Frequently Asked Questions**

The FAQ section of our website provides answers to many questions commonly asked about installation.
